Profiling

Your Profiling

Personal profiling is the first step in career planning. The purpose of profiling is to understand your current career planning stage. It will help decide your career objective and roadmap. The ultimate aim of the planning is to take you from the current stage of career planning to the optimized stage of career planning. Personal profiling includes information about your current stage, the risk involved and action plan for your career development.

Current Stage of Planning

Ignorant

Confused
Diffused
Methodical
Optimized

Confused

Confused: You are at the confused stage in career planning. We understand that you are having little idea of career planning, but usually confused among various career options. At this stage, you are looking for proper guidance. Generally, at this stage, your career decisions shall be influenced by friends and parents.

Risk Involved: Wrong selection of a career path, career dissatisfaction, and self-interest mismatch.

Action Plan : Explore your strengths and weakness > Explore career options > Gather information>Match best suitable option> Early execution.

Career Personality

Result of the Career Personality

Personality Assessment will help you understand yourself as a person. It will help you expand your career options in alignment with your personality. Self-understanding and awareness can lead you to more appropriate and rewarding career choices. The Personality Type Model identifies four dimensions of personality. Each dimension will give you a clear description of your personality. The combination of your most dominant preferences is used to create your individual personality type. Four dimensions of your personality are mentioned in this chart. The graph below provides information about the personality type you belong to, based on the scoring of your responses. Each of the four preferences are based on your answers and are indicated by a bar chart.

MBTI CODE: Introvert:Sensing:Thinking:Judging

Introvert [100%]   **Extrovert [0%]**

Sensing [71%]   **iNtuitive [29%]**

Thinking [86%]   **Feeling [14%]**

Judging [71%]   **Perceiving [29%]**

Analysis of Career Personality

Your Career Personality Analysis

Where do you prefer to focus your energy and attention?

- You mostly get your energy from dealing with ideas, pictures, memories and reactions which are part of your imaginative world.
- You are quiet, reserved and like to spend your time alone.
- Your primary mode of living is focused internally.
- You are passionate but not usually aggressive.
- You are a good listener.
- You are more of an inside-out person.

How do you grasp and process the information?

- You mostly collect and trust the information that is presented in a detailed and sequential manner.
- You think more about the present and learn from the past.
- You like to see the practical use of things and learn best from practice.
- You notice facts and remember details that are important to you.
- You solve problems by working through facts until you understand the problem.
- You create meaning from conscious thought and learn by observation.

How do you make decisions?

- You seem to make decisions based on logic rather than the circumstances.
- You believe telling truth is more important than being tactful.
- You seem to look for logical explanations or solutions to almost everything.
- You can often be seen as very task-oriented, uncaring, or indifferent.
- You are ruled by your head instead of your heart.
- You are a critical thinker and oriented toward problem solving.
